STOP TOM PRICE

If Tom Price is confirmed as Secretary of Health & Human Services, **he will lead the charge to privatize Medicare.**

**A TOOL OF BIG DRUG
& INSURANCE COMPANIES**

In Congress, Price received hundreds of thousands of dollars in contributions from big drug and insurance companies that would benefit from his privatization agenda—and hurt working families.

RADICAL VIEWS

Price's extreme positions favor corporate profits and hurt working families. He said, "nothing has had a greater negative effect on the delivery of health care than the federal government's intrusion into medicine through Medicare." [Politico, 2009]

**WANTS TO
PRIVATIZE MEDICARE**

According to the *Washington Post*, "Price is a longtime advocate of a Medicare [privatization] where the government would provide assistance for seniors to buy private health insurance plans." [Washington Post, 2016]
