

**WE CAN
SAVE
CALL
CENTER
JOBS!**

Dear Senator/Representative _____,

More than 3 million working men and women across this country provide customer service at call centers, but their jobs are increasingly coming under attack. In the past ten years, corporations have outsourced tens of thousands of call center jobs, sending much of that work to low-wage countries in a short-sighted race to the bottom. But we know that consumers and communities win when corporations invest in good jobs providing customer service in this country.

I urge you to co-sponsor the United States Call Center Worker and Consumer Protection Act of 2017 (S515/HR1300), so that we can protect these good jobs and the high-quality services they provide Americans.

Sincerely,
