For
Avaya Bargaining

I am running for the 2018 Avaya Bargaining team. My union experience includes 25 years as an Area Representative, Steward, Mobilizer, Organizer and Safety Representative. I have a bachelor's degree in Communications with a minor in Business Management and am near completion of my graduate degree in Human Resources with a specialty in Project Management. My work experience, union experience and education have sharpened my understanding of employment and labor practices. In turn, I have a better insight towards developing strategies to address union issues.

My passion is to fight against labor injustice. Together with my labor brother and sisters we have:

-) Ceased reoccurring layoffs since 2015, protecting job security for the union employees.
-) Won back outsourced work to contractors and international workers to our union workforce.
-) Won labor board charges against Avaya for refusal to provide company records and forced the company to bring back work.

Avaya has been on a continuous path towards reduction of our union workforce. The Avaya US Service Desk has moved work to contractors and international service desks, while blocking us from supporting higher release systems, newly introduced products, and job related training. I am committed to all Avaya members by making job security a priority. It would be an honor and a privilege to serve on the Avaya Bargaining Committee.

In Unity and Solidarity!
